

# Developing a Tau-Based Drug to Fight Alzheimer's Disease

8 December 2020 | 5-6 pm (CET) | SPARK-BIH Online Lecture

**5 pm**      **Developing a Tau-Based Drug to Fight Alzheimer's Disease. A Long and Winding Road in the Land of Amyloid.**  
Prof. Dr. Franz Theuring  
Professor for Pharmacology and Toxicology at the Charité  
and Co-Founder of TauRx Therapeutics

## Planning to found a life science company?

The transition from an academic research project to an established medical solution is a long and labor intensive process that can fail at various steps. What are the main challenges and common pitfalls that occur? What are the crucial steps to keep in mind? In this **Online Entrepreneurial Forum Lecture Prof. Dr. Franz Theuring** will tell us about his experience of working in pharmaceutical industry and founding a pharmaceutical company.

**Online via [GoToMeeting](#) | Please register [here](#).**
